

Job Description

A D Calvert has an opportunity for a Maintenance Engineer/ Plant Fitter to join our highly sophisticated stone production facility in Leyburn.

This position would suit an experienced Maintenance Engineer or Plant Fitter from a Dimensional Stone/ Quarry Industry or a similar sector.

Duties

As our Maintenance Engineer /Plant Fitter your duties will include carrying out routine repairs, maintenance, fabrication and installation work on stone saws and a range of heavy plant including crushing, screens and mobile plant.

Skills

- To become our Maintenance Engineer/ Plant Fitter you must have the following skills, experience and attributes:
- Have a working understanding of modern machinery covering hydraulics, pneumatics, mechanical principles, transmission units, electrical circuits and machine control.
- Fabrication and installation work on heavy plant, including stone saws, crushing screens and mobile plant.
- Experience in hot work/ welding/ cutting and the ability to operate workshop machinery.
- Self motivated, genuine with a friendly positive attitude
- The ability to communicate effectively with all members of the team.
- Excellent organisational skills and good time management
- The ability to keep an organised and tidy work area
- Committed to maintaining a safe and healthy workplace
- Must be flexible to undertake any other reasonable duties as required.
- Must hold a current driving licence.

The successful applicant must have:

- A proven track record in maintenance of machinery in a dimensional stone processing plant or similar heavy manufacturing industry.
- Experience in a similar mechanical or electrical maintenance engineering role.
- Experience with machine control, electrical circuits, hydraulics, pneumatics, transmission units and mechanical engineering principles.
- You will have relevant mechanical or electrical qualifications and experience.

The successful applicant will be required to commence at the earliest opportunity. In return for your hard work and commitment you will receive a competitive hourly rate. If you are interested in this role and feel you have the necessary skills and experiences please send your CV to the link below.
