

Stone Federation is the leading authority on Natural Stone in the UK.

Our members meet strict guidelines and criteria and have combined their expert knowledge in compiling these unique publications. These guides are available to architects and specifiers only, as well as members of Stone Federation.

Code of Practice for the Design and Installation of Kitchen Worktops

This Code gives recommendations for the design, manufacturer and installation of natural stone for use as kitchen worktops and other similar surfaces and has been described as the essential document for anyone wishing to use natural stone in this area.

Price | This Code is available now and is priced at £45.00 (£25.00 for Stone Federation members) including postage and packing (postage charge for overseas members).

Code of Practice for the Design and Installation of Internal Flooring NEW AND UPDATED!

Based on the relevant parts of a number of British Standards relating to the design and installation of natural stone floors, this Code also incorporates the requirements of the latest European Standards and current good practice.

It sets out the principal factors involved when deciding to use natural stone as flooring and considers stone selection, design, laying, protection and maintenance, to assist in avoiding or disappointment with aesthetic results.

The Federation receives more enquiries and requests for advice on stone flooring than any other speciality. This code will prove invaluable if you are intending to use natural stone in any type of flooring situation.

Price | The Code is £50.00 (£30.00 for Stone Federation members) including postage and packing (postage charge for overseas). A personalised message printed on the inside front covers are available for bulk orders at no extra cost. Contact Stone Federation for details.

Installation in Wet Rooms, Steam Rooms and Shower Enclosures NEW!

This Stone Federation Great Britain Design Guide is intended to provide advice on the use of natural stone in wet rooms, steam rooms and shower enclosures. It is based on the relevant parts of a number of British Standards relating to the design, supply and installation of natural stone and incorporates the requirements of the latest current good practice.

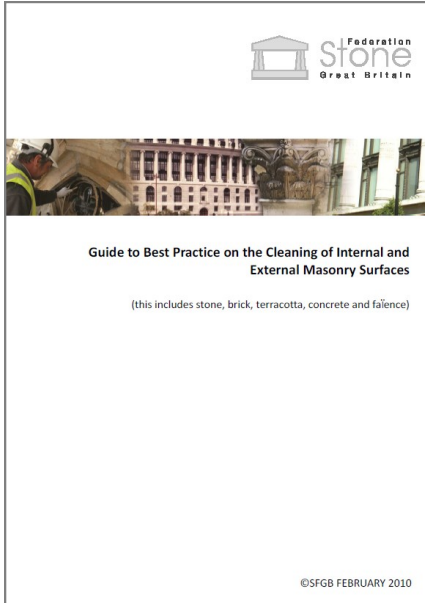

It sets out the principal factors involved when deciding to use natural stone in wet rooms, steam rooms and shower enclosures. It considers stone selection, design, installation, protection and maintenance, in an attempt to assist in avoiding common errors, aesthetic disappointment, or outright failure.

Price | This Code is available now and is priced at £40.00 (£20.00 for Stone Federation members) including postage and packing (postage charge for overseas members).

Stone Federation is the leading authority on Natural Stone in the UK.
