

# AMARESTONE

*...love stone*

#### REQUIREMENTS:

- Contemporary, easy maintenance children's bathroom with underfloor heating
- Wet-room style ensuite shower room with fully tanked walk-in shower
- Bespoke vanity tops to coordinate with tiles
- Bespoke basin to fit restricted space
- Kitchen flooring and worktops to compliment units and customer's antique table and chairs

#### SOLUTION:

- Floors strengthened and insulated in children's bathroom prior to laying underfloor heating systems and floor tiles
- Shower area fully tanked and sloped to a channel drain with matching tile grating
- Custom made basin and vanity tops to fit the available space
- Antiqued stone on the floor and Italian marble worktops in the kitchen to link in with the customer's chosen colour scheme and match an existing antique marble table-top.

*"Steve and Denise's expertise and advice have been fundamental to the success of our kitchen and bathroom refurbishment. They didn't just provide us with the best quality stone tiles and basin at a very competitive price, but gave us their expert advice on what stone to get to create the look that we wanted, all in a friendly and caring manner. The results speak for themselves, which is why we can only recommend Amarestone."*
