

## SUTTON ROAD, LANGLEY PARK

Maidstone, Kent

Gallagher Aggregates Ltd supplied split faced polygonal Kentish Ragstone walling as the external cladding for a new build development in Maidstone, Kent.

Langley Park is the first phase of a new community in Maidstone, which will deliver a range of local facilities including new houses, a new primary school, a country park, a local centre and community allotments.

Gallagher's Kentish Ragstone continues to enhance the quality of new modern developments being built across Kent and South East England, ensuring that the vernacular and historic local character is encompassed within the design of new buildings and their modern constructional requirements including stringent thermal conductivity values.

2017

### FACTS

Gallagher is the last remaining company still quarrying Kentish Ragstone, the most widespread building stone used throughout the South East of England.

To maintain the local character of Kent's architecture, Gallagher's Hermitage Quarry supplies building stone for restoration and new build projects.
